A Pictorial Record of  
Confederation's 70 Years

Guardian of the Tower, Ottawa,  
Dominion Day, 1937

# THE *New* INTERNATIONALS

International Harvester produces an "early model" change in trucks. A new line is not just a matter of the vehicle with this Company. It is interested only in keeping International trucks at top efficiency.

The International "D" models, now on the highways in many tens of thousands, are living evidence that this policy gives the truck user what he needs for lasting satisfaction. There have been no better trucks on the market, but now there are better trucks by far—these new Internationals.

The International reputation has advanced steadily as performance and long life, on unequalled nation-wide service, and on the truck user's final objective—ECONOMY.

In the meantime, International has been consistently at work on the basic problems of engine and chassis design,

load distribution and loading, increased power, fuel economy, and driver comfort. The re-sources of its engineering staff, its laboratories, its plant and proving grounds were centered in the development of a fundamentally better product. Today the many buyers' names are combined in this completely new line of trucks.

Today International Harvester offers truck users the finest value of the year, a product not only engineered to the moment, and only poured in the long process of development, but styled for public acceptance. These new trucks are at your service—on display at any International branch or dealer showroom.

*But what a Difference*

**SAL HEPATICA Helps Your Energy  
Back to Par Because Its Double Action  
1. CLEANSSES THE SYSTEM 2. COMBATS ACIDITY**

Back and to have better, sluggish spells... but he learned how often that dull, heavy feeling is due to a combination of unduly acid waters in the body... and he learned that Sal Hepatica combats both.

In most cases, people who suffer from constipation are not even aware of the fact that they are suffering from excess acidity and. Almost always, these two disorders work together. Therefore, then, they soon sap your energy—give you that fagged-out feeling.

And, freeing yourself from the effects of one of these conditions, without touching the other is going only half way. Before you can regain your pep you must combat both. That is what Sal Hepatica does for you. For Sal Hepatica

not only cleanses your system quickly and gently, but it combats acidity at the same time.

Take two teaspoonfuls of Sal Hepatica in a glass of water. Soon you will feel better, more alive. Let this one building block start you back to your normal pep and energy.

Get a bottle of Sal Hepatica today!

LIKE FAMOUS EUROPEAN SPAS

Sal Hepatica, the sparkling white drug, is a combination of food digesting salts, also in the active waters of the famous springs and spas of Europe, in which physicians and scientific practitioners find new health, and vitality.

It is a deliciously pleasant, efficacious compound that has been national and practically by doctors for over 40 years.

- THE DAY BEFORE THE DAY —**
- Watch the letters leaving the hands with drive and place in the correct files in the correspondence to be answered.
- Make the daily drawing.
- Remove the letters from the mailbox, work on them, place in the correct file, and return to the clerk's file.
- Remove the checks, place in the correct file.
- Make the tape report.
- Make up the report (if it is to appear each on the day after the day before).

Chen

- Next Step**
- 1 Cupful of granulated sugar  
1 Cupful of water
- Put the sugar and water together for four hours. Cool and strain in a cheesecloth bag in the refrigerator. This makes about 2 1/2 cupfuls of syrup. To substitute syrup for sugar in a recipe, use 1 1/2 cupfuls of syrup for each cupful of sugar.
- The Day of Its Name—**
- "Tule" or "the honey, that and all the dining room."
- Combine the fruit, juice and sugar in a large bowl. Stir gently.
- Wash and remove the skins from the raisins, then cut in half water-soaked (optional).
- Remove the brown stems and seeds, and be careful to clean out any stems left hanging.
- Stir in the granules and leave in a glass bowl water to a consistent

The plans that have been made are more complex than ever for the company, as it will no longer maintain a conventional corporate communication between the different parts of the Group. "The two divisions, and therefore the two companies, will be autonomous," he stressed. And the sales director was quoted on the question of defense: "In this area, too, the division will follow the important decisions and will not be involved in the day-to-day plans," he said, and was the first time the word defense had been mentioned in their presence.

At the closed meeting, it did not emerge if the company would be able to

*"Quick, Bill—  
she's darling now!"*

A flick of his finger . . . The most precious baby in the world—just as she is today—will always smile at them out of the snapshot . . . What a loss it is when children grow, and change, without a complete snapshot record for the future.

For snaps that are natural, true-to-life, easy to get in almost any

weather, load your camera with Kodak Verichrome Film. Most snapshots are made on it—people have found that it pays. Any camera is a better camera, loaded with Verichrome—use it always.

In Canada "Kodak" is the registered trade mark and sole property of Canadian Kodak Co., Limited, Toronto, Ontario.

The snapshots you'll  
want Tomorrow—  
you must take  
Today

Accept nothing  
but the film  
with the trade mark  
KODAK on the box.
